**Non-Art Rejections:**

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following language is vague and indefinite:

In claim 1, line 9, "...such that a number of threads in said thread pool may be dynamically adjusted..", the term "may be" renders the claim indefinite because it is unclear whether the thread pool would be adjusted. The applicant is suggested to replace "may be" with other more definite verbs (e.g., is).

**Allowable Subject matter:**

3. Claims 6-18 are allowed over prior art of record.

**Conclusion:**
